**Organization:** Department of the Interior Docket: 030-31056  
Bureau of Reclamation Control: 585988  
**Phone:** 801-379-1258  
**E-mail Address:** thaws@usbr.gov  
**From:** Jacqueline D. Cook  
**Date:** August 4, 2015  
**Subject:** Application dated January 28, 2015 for License Renewal  
**Pages:** 3

Mr. Haws:

Per your application dated January 28, 2015, the items on the next page are deficiencies which require your response. **Please respond to this e-mail by Tuesday, August 18, 2015.** Our fax number is (817) 200-1263. You may respond by e-mail in pdf format if you'd like. My email address is [Jackie.Cook@nrc.gov](mailto:Jackie.Cook@nrc.gov). When responding to this e-mail, please include the license, docket and control numbers located at the top of this page. **After reviewing your responses to the request for additional information and I determine that your responses are adequate, I will issue an amendment to your license to coincide with your response.**

Please note that your renewal application was reviewed using NUREG-1556, Vol. 1, Rev. 1, "Consolidated Guidance About Materials Licenses: Program-Specific Guidance About Portable Gauge Licenses" dated November 2001 (<http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v1/r1/>).

Thanking you in advance for your cooperation, assistance, and prompt response in this matter.

/RA/  
Jacqueline D. Cook  
Senior Health Physicist

1. Please note that license condition 10.B. specifies 2200 Bloomfield Highway, Farmington, New Mexico as a use or storage location; however, your renewal application dated January 28, 2015, did not include this location.

Please clarify this discrepancy. If gauges are no longer being used or stored at the New Mexico facility and you want the facility released for unrestricted use, please submit the latest leak test results for the gauges used at that facility.

2. Please specify the quantity of gauges that you possess.
3. Please note that the address listed in Item 2 of your license specifies 302 East 1860 South; however, Item 9.A. of your renewal application specifies storage facilities at the southeast end of an office complex at 302 East and 1860 South in Provo, Utah.

Please clarify if the storage location is 1 location or 2 separate locations. Please clarify this discrepancy.

4. Please note that Item 1 of your license specifies the licensee as Department of the Interior, Bureau of Reclamation; however, Item 2 of your renewal application dated January 28, 2015, specifies the name of the licensee (applicant) as Thomas J. Haws, Department of the Interior, Bureau of Reclamation, Provo Area Office.

Please clarify this discrepancy.

5. Please commit: "Before obtaining licensed materials, the proposed RSO will have successfully completed one of the training courses described in Criteria in the section entitled 'Individual(s) Responsible for Radiation Safety Program and Their Training and Experience – Radiation Safety Officer' in NUREG-1556, Vol. 1, Rev. 1, dated November 2001."
6. Although you specified Mr. Ron Todhunter as the Alternate Radiation Safety Officer (RSO), please note that the NRC does not list an "Alternate Radiation Safety Officer" on a license.

The Radiation Safety Officer (RSO) is responsible for the overall management of the radiation safety program; identifying radiation safety problems, initiating, recommending or providing corrective actions; verifying implementation of corrective actions; ensuring compliance with the Commission's rules and regulations and conditions of the license. An RSO should actively participate in the day-to-day management of the radiation safety program. Although the performance of certain radiation safety tasks may be delegated by the RSO to other individuals (such as an alternate Radiation Safety Officer), the responsibility for the overall effectiveness of the radiation safety program and for compliance with NRC rules and regulations and conditions of the license reside with the RSO.

Please confirm your understanding of this.

7. Please commit: "Before using licensed materials, authorized users will have successfully completed one of the training courses described in Criteria in the section entitled "Training for Individuals Working In or Frequenting Restricted Areas" in NUREG-1556, Vol. 1, Rev. 1, dated November 2001."
8. Please commit: "Physical inventories will be conducted at intervals not to exceed **6 months**, to account for all sealed sources and devices received and possessed under the license. Please see license condition 15 of your current license."
9. Please commit: "We will implement and maintain the operating, emergency, and **security** procedures described in the errata sheet to Appendix H of NUREG-1556, Vol. 1, Rev. 1, dated November 2001".
10. Please explain, in writing, how you are going to meet 10 CFR 30.34(i) (<http://www.nrc.gov/reading-rm/doc-collections/cfr/part030/part030-0034.html>) – 2 independent physical controls.
