RE: License Number 13-32671-01 Amendment 02

On the Amendment request dated 5/28/15, I did not make clear that we wanted Item #8 on the license to be amended to 6 sources not to exceed 120 curies each with a total of 720 curies.

This was so that we could store enough sources at each location that we would not have to continually be transporting sources back and forth from each location.

We are requesting that Item #8 of the License Number 13-32671-01 be amended to change the number of total sources under the license to 6 sources not to exceed 120 curies each with a total of 720 curies.
