Scott:

An extension is acceptable to include the additional data in the report versus sending the data as a supplement. I would like to have the report submitted by COB, Monday, August 10, 2015.

Ron

**Subject:** [External\_Sender] Irigaray Mine Unit 1-9 Surface Reclamation Plan

Ron

Uranium One has found some additional Cogema trench sampling data from 2005 and 2006 that is not included in the current data evaluation for the Irigaray 1-9 surface decommissioning report.

Uranium One would like to include this data in the package there appears to be approximately 80 data points that would need to be evaluated and added to the mapping and trench data.

As discussed with you this morning we could send in as supplemental data package to the report or address upfront and include in the original submittal. As you suggested, Uranium One would like to extend submittal to August 7, 2015 to allow the evaluation of this data and incorporation into the report.

Ron if this poses any issues please let me know.

Regards,

**Scott Schierman** | HSE Manager
