**Subject:** [External\_Sender] Don't weaken radioactive waste rules

NRC Rulemakings

To Whom It May Concern:

The NRC is considering changes to its radioactive waste regulations which would:

- \* weaken radiation protection standards;
- \* allow deregulation of some radioactive waste;
- \* prevent states from setting their own, stricter safety standards for radioactive waste;
- \* let waste dump operators perform their own safety assessments so as to boost their profits.

None of these changes are safe, healthy, accountable, or acceptable.

Ned Flaherty
