Subject: [External_Sender] Proposed changes to radioactive waste regulation

Dear Secretary,

TO Whom to it May Concern:

The Nuclear Regulatory Commission is considering changes to the radioactive waste regulations. these changes would:

- weaken radiation protective standards
- allow deregulation of some radioactive waste
- prevent states from setting their own, stricter safety standards for radioactive waste
- establish a clear conflict-of-interest by allowing waste dump operators to perform their own safety assessments in order to accept more kinds of waste at their sites.

Please, be aware that these proposed changes are unacceptable as they are very dangerous.

Thank you.

Sincerely,

Caroline Miller
