Subject: [External_Sender] Don't weaken radioactive waste rules

Dear Secretary,

As a concerned citizen, a parent, grandparent and great-grandparent, - I am asking the NRC to reject proposed changes to radioactive waste regulations which would:

- *weaken radiation protection standards

- *allow deregulation of some radioactive waste

- *prevent states from setting their own, stricter safety standards for radioactive waste

- *establish a clear conflict-of-interest by allowing waste dump operators to perform their own safety assessments in order to accept more kinds of waste at their sites.

For the protection of the environment and living things, in our lifetime and beyond, the above changes to radioactive waste rules are unacceptable.
