Dear Secretary,

The Nuclear Regulatory Commission is considering changes to its radioactive waste regulations. These changes would:

- \*weaken radiation protection standards
- \*allow deregulation of some radioactive waste
- \*prevent states from setting their own, stricter safety standards for radioactive waste
- \*establish a clear conflict-of-interest by allowing waste dump operators to perform their own safety assessments in order to accept more kinds of waste at their sites.

These proposed changes are unacceptable!
