**Subject:** [External\_Sender] Radioactive Waste Rules Should Not Be Weakened

Dear Secretary,

I understand the Nuclear Regulatory Commission (NRC) is considering changes to its radioactive waste regulations. But it appears these changes would:

- \* weaken radiation protection standards
- \* allow deregulation of some radioactive waste
- \* prevent states from setting their own, stricter safety standards for radioactive waste
- \* establish a clear conflict-of-interest by allowing waste dump operators to perform their own safety assessments in order to accept more kinds of waste at their sites

Please do NOT weaken radioactive waste rules. They should be strengthened!

Thank you.

Mark Bartleman
