ATTN: Document Control Desk
One White Flint North
11555 Rockville Pike
Rockville, MD 20852-2738

SUBJECT: NuScale Power, LLC Submittal of Presentation Materials Entitled "NuScale Effluent Release (GALE Replacement) Methodology", Rev. 0, (PM-0715-16229) for Use During a Public and Closed Meeting on August 20, 2015 (NRC Project No. 0769)

NuScale Power, LLC (NuScale) has requested a meeting with the NRC technical staff on August 20, 2015 to discuss the methodology used to estimate normal operation effluents in lieu of use of the GALE code. NuScale requests a portion of the meeting be closed due to the proprietary nature of the information that will be presented and discussed. The purpose of this submittal is to provide presentation materials to the NRC for use during this meeting that summarizes the content of an upcoming topical report.

Enclosure 1 is the nonproprietary version of the presentation entitled "NuScale Effluent Release (GALE Replacement) Methodology." Enclosure 2 is the proprietary version. NuScale requests that the proprietary version be withheld from public disclosure in accordance with the requirements of 10 CFR § 2.390. The enclosed affidavit (Enclosure 3) supports this request. This correspondence includes preliminary information which reflects the current stage of the NuScale design and analyses and may be subject to change.

This letter makes no regulatory commitments and no revisions to any existing regulatory commitments.

Please feel free to contact Steven Mirsky at (301) 770-0472 or at smirsky@nuscalepower.com if you have any questions.

Sincerely,

Steve Mirsky
