NO. 587116

Dear Mr. Chipola:

This refers to your license amendment request dated May 28, 2015. Enclosed with this letter is the amended license. The amended license authorizes you to move licensed material to your new location in Newark, and also retains the existing Middletown location on the license. You should request another amendment to your license to remove the Middletown facility from the license after all licensed material is removed from the new location.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at [www.nrc.gov](http://www.nrc.gov); select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits**, see our **toolkit index page**.
