Dulles, VA 20166

SUBJECT: IBA MOLECULAR NORTH AMERICA, INC., TRANSFER OF CONTROL,
CONTROL NO. 586861/586771

Dear Mr. Pellicciarini:

By letter dated May 6, 2015 (ML15146A046), IBA Molecular North America, Inc. submitted to the U.S. Nuclear Regulatory Commission (NRC) a request for consent to an indirect license transfer of NRC Materials License Nos. 45-25221-01MD and 45-25221-05. Based on the information provided, the NRC understands that 100 percent of the equity shares of GRD PET Operations, Inc. (the parent company of IBA Molecular North America, Inc.), will be sold to C-Molecular, Inc. Following the sale, GRD PET Operations, Inc. will be a wholly owned subsidiary of C-Molecular, Inc., and IBA Molecular North America, Inc. will remain a wholly owned subsidiary of GRD PET Operations, Inc. We further understand that these transfers will not result in any changes to the licensee name, licensed materials, persons using the licensed material, location of use, or persons responsible for the radiation safety program.

Based on the above understandings and as more fully detailed in the enclosed NRC staff's Safety Evaluation Report, which documents the NRC staff's review of the request, we have no objection to the proposed transfers. We understand that the transfers will take place on July 31, 2015. Please note that you will need to notify us promptly, in writing, after the transaction has been finalized and include a signed copy of the sales agreement confirming completion of the transaction. If this planned sale has not been consummated within 30 days of the date of this letter please notify us in writing. Please contact me at 610-337-5272, or by e-mail at tara.weidner@nrc.gov.

Future changes in the licensee's name, licensed use, licensed materials, licensed location, or persons responsible for licensed material require submission of a request to amend the license. NRC approval must be received prior to implementation of the proposed change.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(21).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits**, see our

toolkit index page. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC website at <http://www.nrc.gov/reading-rm/adams.html>.

Thank you for your cooperation.

Sincerely,

Original signed by Tara L. Weidner
