**Subject:** [External\_Sender] Petition For Rulemaking; Notice Of Docketing And Request For Comment

This is a ridiculous proposal! The levels that are currently in place do NOT need to change. I personally do NOT choose to have my rad levels raised! Please do the right thing for the earth and for people and for yourself and stop this now. Please SAY NO.

Thank you.

I'm sorry, that would have been more helpful! Here you go:

# Linear No-Threshold Model and Standards for Protection Against Radiation

Thank you.

Tracy,

The Office of the Secretary is in receipt of your comment. Please verify which Petition for Rulemaking this is in reference to so that your comment can be properly processed and considered by the NRC Staff.

Thank you.
