Dear Mr. Denton:

10 CFR 73.47, "Licensee Fixed Site and In-Transit Requirements for the Physical Protection of Special Nuclear Material of Moderate and Low Strategic Significance", requires the submittal of a security plan describing compliance with the requirements of Sections 73.47 (d), (e), (f), and (g), as appropriate, including schedules of implementation. It has been determined that Oconee Nuclear Station may, in some cases, be subject to the requirements of Section 73.47 (g). A plan addressing in-transit requirements for special nuclear material of low strategic significance is in preparation. This plan will be submitted by June 25, 1980.

Very truly yours,

  
William O. Parker, Jr.
