Docket Nos. 50-269, -270, -287

Dear Sir:

Pursuant to 10CFR 50, §50.90 and in response to Generic Letter No. 82-23, please find attached a proposed amendment to the Oconee Facility Operating License and a revision to the Oconee Technical Specifications. This proposal changes the frequency of audits of the station security plan and implementing procedures as specified in Technical Specification 6.1.3.4(f) from once every two years to one every year. The need for this change was identified in Generic Letter No. 82-23, and the requested change is consistent with the requirements of 10CFR 73.40(d).

Because this Technical Specification change is clarifying in nature and made at the request of the Commission as specified in Generic Letter No. 82-23, a license fee is not required.

Very truly yours,

Hal B. Tucker
