Subject: Oconee Nuclear Station
Docket Nos. 50-269, -270, -287
Lee Gas Turbine

Gentlemen:

By my letter of December 15, 1988 and via Licensee Event Report (LER) 269/88-13 the NRC was informed of the results of an electrical transient analysis regarding emergency backup power from Lee gas turbines for Oconee Nuclear Station. As a corrective action, I committed to implementation of a hardware modification. Implementation of this modification on all three Oconee units is currently planned for completion by the end of the next Unit 2 refueling outage (currently scheduled for July 3, 1989).

Very truly yours,

Hal B. Tucker
