Selected Licensee Commitments Manual (SLC)

Gentlemen:

Pursuant to 10 CFR 50.4 and 50.71, please find attached 7 copies of the latest revisions to the Oconee Selected Licensee Commitments Manual. The SLC Manual is Chapter 16.0 to the Oconee FSAR. This manual is meant to contain commitments and other station issues that we believe warrant higher control, but are not appropriate in the Technical Specifications (TS). Instead of being updated with the annual FSAR Update, the SLC Manual will be updated monthly as needed during the year.

Very truly yours,

J. W. Hampton

Subject: Ocone SLC Revision

This revision to the SLC manual consists of a new SLC devoted to the control and monitoring of specific room temperatures. This SLC is required to assure adequate margin is available during station blackout events to ensure equipment operability and room habitability.

Please update your copy of this manual as follows:
