Dear Ms. Curran:

This e-mail provides an update to your petitions for rulemaking (PRM) docketed as PRM-51-30 and PRM-51-31. The PRMs requested that the NRC revise certain regulations that concern the impacts of spent fuel storage and disposal in environmental reviews for nuclear power plant license renewal applications. These regulations are found in Part 51 of Title 10 of the Code of Federal Regulations. The NRC published a notice of receipt of PRM-51-30 in the Federal Register (FR) on April 21, 2014 at 79 FR 22055. The NRC published a notice of receipt of PRM-51-31 in the Federal Register on May 1, 2014 at 79 FR 24595 (re-noticed on July 24, 2014 at 79 FR 42989 following submission of supplement by petitioners). The NRC has consolidated its review of PRM 51-30 and PRM-51-31 because both petitions make similar rulemaking requests. The NRC will continue to evaluate the issues raised by the PRMs.

You can monitor the docket for your petition on the Federal rulemaking Web site at <http://www.regulations.gov> by searching on Docket ID NRC-2014-0014 or NRC-14-0055. The Federal rulemaking Web site allows you to receive alerts when changes or additions occur in a docket folder. To subscribe: 1) navigate to the docket folder (NRC-2014-0014 or NRC-14-0055); 2) click the "Sign up for E-mail Alerts" link; and 3) enter your e-mail address and select how frequently you would like to receive e-mails (daily, weekly, or monthly). The NRC also tracks petition for rulemaking actions at <http://www.nrc.gov/reading-rm/doccollections/rulemakingruleforum/petitions-by-year.html>
