LISLE, IL 60532-4352

AUG 04 2015

James C. Hatten
Radiation Safety Officer
EMD Millipore
6 Research Park Drive
St. Charles, MO 63304

Dear Mr. Hatten:

Enclosed is Amendment No. 25 to your NRC Material License No. 24-26445-01 in accordance with your request. Please note that the changes made to your license are printed in **bold** font.

Please note that the distributor of generally licensed *in vitro* kits must not transfer materials to a general licensee unless the general licensee has a properly completed NRC Form-483, "Registration Certificate – *In Vitro* Testing with Byproduct Material Under General License" on file with NRC. Distributors can verify this information by obtaining a copy of the general licensee's validated NRC Form-483. An NRC Form-483 has been validated if it has been assigned a registration number by NRC. Alternate methods for verification are listed in 10 CFR 30.41(d).

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's expectations for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

In accordance with 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

A handwritten signature in black ink, appearing to read "Toye L. Simmons". The signature is fluid and cursive, with a large initial "T" and a long, sweeping underline.

Toye L. Simmons
