ADDITIONAL INFORMATION (Reference applicable block numbers from page 1 and/or page 2 for each entry)

This amendment request is to change the ultimate consignee from the Ministry of Interior to just the Government of Iraq. There is no change in the quantity of radioactive material or in the intended use of the material and equipment.

This change will allow export to any ministry within the Government of Iraq and not just to the Ministry of Interior (MoI).

The current license conditions remain the same as they are specific to the Government of Iraq and not just the Ministry of Interior. The Co-60 VACIS systems will continue to be used for non-intrusive inspection of cargo/vehicles to detect contraband, weapons, material threats, etc. The Cs-137 will continue to be used to test the operability of hand held radiation detection and measurement systems.

Subject: Amendment Request to Export License XB1310 (Iraq)

Leidos is requesting that the Ultimate Foreign Consignee for export license XB1310 be changed from the Ministry of Interior of the Government of Iraq to just the Government of Iraq. This change will allow the sale of security products to other ministries within the Iraqi Government. All of the current license conditions reflect Government of Iraq and there is no change in the quantity or use conditions. The only change requested is the Ultimate Foreign Consignee.

Should you have any questions or comments, please do not hesitate to contact me.
