## General Comment

Good afternoon

I'm Terry Madonna, a 40 year resident of San Luis Obispo County and the current Business Agent of the Plumbers/pipefitters local 403. Our members and I are in favor of the relicensing of Diablo Canyon Nuclear Power Plant. Diablo Canyon for 30 years has been a major source of clean energy for the state of California. During this time the plant has operated without incidence. PG&E is continuously upgrading the plants safety and security measures. I have worked at the plant off and on for 30 years and seen first hand PG&E's cooperation With the NRC abiding by the regulations and training their employees to ensure that the plant operates safely. On behalf of the Plumber/fitters local 403 I urge the NRC to relicense Diablo Canyon Nuclear Power Plant.
