Kevin G. Null
Division of Nuclear Materials Safety
Nuclear Regulatory Commission (NRC), Region III
2443 Warrenville Road, Suite 210
Lisle, Illinois 60532-4352

Dear Mr. Null:

I request to amend NRC License 03-23853-01VA, to add an organizational position to be the National Radiation Safety Committee (NRSC) chair and continue currently approved positions as alternates to chair individual meetings if needed.

Currently, the National Director Nuclear Medicine & Radiation Safety Services is the approved chair position, with alternates being the Chief Consultant, Diagnostic Services Strategic Healthcare Group, the Assistant Deputy Under Secretary for Health for Patient Care Services (PCS), and the Deputy Chief PCS Officer.

I request the National Radiation Oncology Program Director position be approved to serve as the chair. The physician assigned to this position is part of VHA corporate executive management and is responsible for coordinating consultations for the Under Secretary for Health in matters concerning his/her area of expertise. This position has been represented on the NRSC since 2009, and is familiar with business requirements.

These five positions are in the PCS organizational structure. I enclose an organizational chart showing the position of the chair within PCS.

This request is consistent with the current NRSC delegation of authority. The NRSC Executive Leadership Committee reviewed and approved this request on July 7, 2015.

Kevin G. Null

If approved, a 30-day advance notification will be submitted to NRC before a change is effected to the senior staff physician assigned as the chair.

Please contact me at 501-257-1571, if you have any questions or comments.

Sincerely,

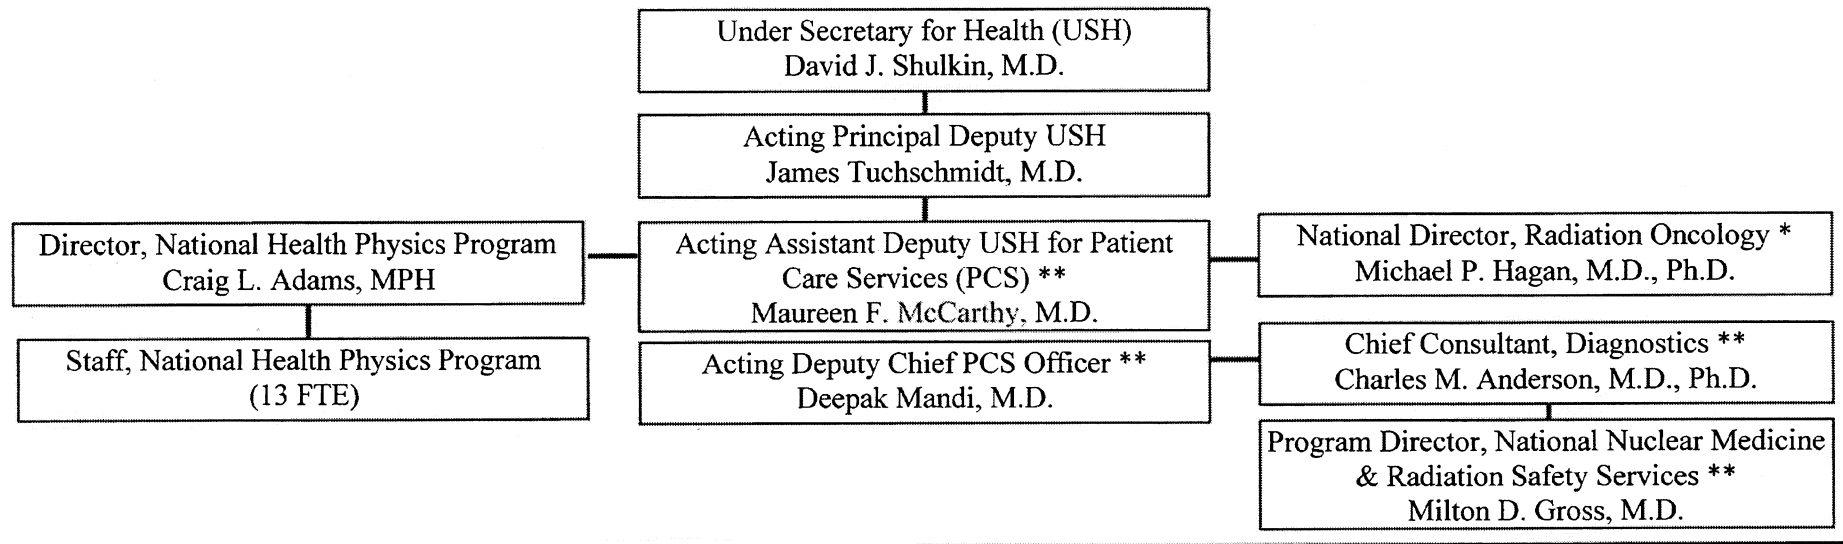

Craig L. Adams, MPH
Director
