Jelight Company, Inc.
ATTN: Inyu Kim
Radiation Safety Officer
2 Mason
Irvine, CA 92618

SUBJECT: JELIGHT COMPANY, INC. EXEMPT DISTRIBUTION LICENSE APPLICATION
FEE DUE

Dear Mr. Kim:

This letter is in reference to Jelight Company, Inc. U.S. Nuclear Regulatory Commission (NRC) exempt-distribution license. On November 12, 2014, Jelight Company, Inc. submitted an application for a new exempt-distribution license, and on February 12, 2015, the NRC issued the license (license no. 04-35190-01E).

In accordance with 10 CFR 170.31, licenses issued under subpart A of 10 CFR 32 to distribute items containing byproduct material or quantities of byproduct material that do not require device evaluation to persons exempt from the licensing requirements of 10 CFR Part 30, are required to pay an application fee of \$11,500.00. To date, Jelight Company, Inc. has not paid the total application fee. On November 20, 2014, the NRC received a partial payment from Jelight Company, Inc. in the amount of \$2,800.00. Attached is NRC Form 577, "Licensee fee requirements," with the additional amount due.

If Jelight Company, Inc. does not pay this debt within 30 calendar days from the date of this letter, then the exempt-distribution license will be revoked by the NRC, and Jelight Company, Inc. will not be able to operate under license no. 04-35190-01E. If Jelight Company, Inc. wants to resume operations after NRC's revocation of the license, then Jelight Company, Inc. will have to pay all debts to NRC and apply for a new license (this would further require payment of a new application fee).

The payment must be submitted to NRC along with NRC Form 577. This form provides the address to submit the payment. In addition, attached is NRC Form 629 in case Jelight Company, Inc. prefers to pay via credit card instead of check. Even if Jelight Company, Inc. chooses to pay by credit card, the payment must still accompany NRC Form 577.

In accordance with 10 CFR 2.390 of NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in NRC's Public Document room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC web site at <http://www.nrc.gov/NRC/ADAMS/inde.html> (the Public Electronic Reading Room).

I. Kim
