**Subject:** IR-100 Thermal Test Question

Can you tell me if the test procedure associated with the Hypothetical Accident Condition fire test changed as a result of the IR-100 amendment request you submitted on July 8, 2015?

The thermal reviewer assigned to review your amendment request for the IR-100 raised this question, and since this question is very simple, I thought I would ask you via e-mail instead of drafting a letter.

Your quick response would be greatly appreciated.

Thanks, Chris Allen
