**Re: Dryer Incident Report  
Lost Creek ISR Project License SUA-1598**

Dear Mrs. Gersey,

On July 18, 2015 a yellowcake dryer released airborne uranium that was detected outside of the dryer room. The attached incident report is submitted to comply with License Condition 12.18. The incident report was initially reported by email to Linda Gersey and John Saxton on July 28, 2015. This is a resubmittal for providing a written copy to all the appropriate parties.

Also, the original submittal contained a date error stating the report was written on July 28, 2014. This has been corrected to show the current year.

Sincerely,

Chris Pedersen  
Radiation Safety Officer
