---

Ron:

Attached is a map showing the location of the private wells within 1 Km of an active mine unit. These wells are sampled quarterly and the results are submitted in the Semiannual Radiological Effluent and Environmental Monitoring Report. Wells are added to this map through the SERP process (SERP 07-01 for MU #10 & SERP 10-09 for MU #11) and field observations made by the Samplers during the quarterly sampling event. The well ID# is derived from CBO's water user survey database. The numbers correlate to the order in which they were entered into the database.

Regards,

**Larry Teahon**
