Subject: [External_Sender] FW: Note to file - No bleed for 4 hours and 15 minutes on Aug 12

John and Brian,

Please see note below from our Plant Manager regarding the bleed rate on August 12th. The average bleed for the entire day was 0.50%.

Regards,
John

Subject: Note to file - No bleed for 4 hours and 15 minutes on Aug 12

Gentlemen,

Note to file,

On August 12, 2015, the processing plant was put in bypass for a software download and valve replacement. The work was expected to be completed in a few hours but took a little over 4 hours. The work lasted from 9:15 am to 1:30 pm. During this 4 hour and 15 minute period, there was no bleed.
