AUC Comments on Draft Source and Materials License

Dear Mr. Glenn:

By this letter AUC LLC (AUC) respectfully submits the enclosed comments regarding the draft Materials License received by mail on June 17, 2015. Per previous discussions, it is AUC's understanding the NRC would prefer to minimize the number of license conditions; accordingly, AUC proposes minor revisions to several draft license conditions and removal of other conditions, where NRC staff and AUC have already agreed that the TR will be modified to reflect AUC's commitments.

AUC appreciates the opportunity to comment on the draft license and looks forward to working with the NRC on the timely development of the final License. If you have any questions, please do not hesitate to contact me at your convenience.

Respectfully Submitted,

James H. Viellenave

President
AUC LLC
