Dear Secretary,

PLEASE PROTECT THE PUBLIC AND THE ENVIRONMENT, NOT INDUSTRY OPERATORS.

NO deregulation of radioactive waste: Remove all provisions that would allow nuclear waste to go to regular trash or other unregulated places or into commercial recycling into consumer goods.

NO increase in radiation to the public: Reject the proposed change from the current allowable public dose of 25 millirems/year to the higher 25 millirems EDE, 100 millirems EDE, 500 millirems EDE or even more per year.

NO "black box" Performance Assessments by dump operators: This presents an obvious conflict-of-interest issue, as operators would have a vested interest in a favorable outcome of such assessments.

NO preemption of state's authority: Allow states to continue setting stricter, more protective standards than NRC. Remove the "Level B" compatibility requirement.
