2443 WARRENVILLE RD. SUITE 210
LISLE, IL 60532-4352

August 18, 2015

Mr. Domenico Luongo
Radiation Safety Officer
Oakland University
2200 N. Squirrel Road / GHC-APT
Rochester, MI 48309

SUBJECT: NRC ROUTINE INSPECTION REPORT NO. 03000823/2015001(DNMS) AND
NOTICE OF VIOLATION – OAKLAND UNIVERSITY

Dear Mr. Luongo:

On July 24, 2015, two inspectors from the U.S. Nuclear Regulatory Commission (NRC) conducted a routine inspection at your campus in Rochester, Michigan, with continued in-office review through July 31, 2015. The purpose of the inspection was to review activities performed under your NRC license to ensure that activities were being performed in accordance with NRC requirements. The in-office review included an evaluation of additional information not available at the time of the inspection. Mr. Ryan Craffey and Mr. Navid Tehrani of my staff conducted a preliminary exit meeting with you, Dr. Michael Sevilla, and Dr. Arik Dvir on July 24, 2015. Mr. Craffey conducted a final exit meeting with you by telephone on July 31, 2015 to discuss the inspection findings.

During this inspection, the NRC staff examined activities conducted under your license related to public health and safety. Additionally, the staff examined your compliance with the Commission's rules and regulations as well as the conditions of your license. Within these areas, the inspection consisted of selected examination of procedures and representative records, observations of activities, and interviews with personnel.

Based on the results of this inspection, the NRC has determined that violations of NRC requirements occurred. The violations were evaluated in accordance with the NRC Enforcement Policy. The current Enforcement Policy is included on the NRC's website at <http://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>. The violations are of a security-related nature. Details of the violations are available in the enclosed, non-public Security Addendum (Enclosure 2). The violations are cited in the enclosed Notice of Violation (Notice) (Enclosure 1). The NRC is citing the violations in the enclosed Notice because the inspector identified the violations.

Enclosures 1 and 2 contain Sensitive
Unclassified Non-Safeguards Information.
When separated from the Enclosures, this
transmittal letter is decontrolled.

D. Loungo

-2-

The NRC has concluded that information regarding the reason for the violations, the corrective actions taken and planned to correct the violations and prevent recurrence, and the date when full compliance will be achieved is already adequately addressed on the docket in Enclosure 2. Therefore, you are not required to respond to this letter unless the description herein does not accurately reflect your corrective actions or your position. In that case, or if you choose to provide additional information, you should follow the instructions specified in the enclosed Notice.

In accordance with Title 10 of the *Code of Federal Regulations* (CFR) 2.390 of the NRC's "Rules of Practice," a copy of this letter will be made available electronically for public inspection in the NRC's Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC's website at <http://www.nrc.gov/reading-rm/adams.html>. However, because the violations involve security-related information, the enclosures to this letter and your response, if you choose to provide one, will not be made available electronically for public inspection. If you do respond, please mark the top of each page with "Security-Related Information – Withhold Under 10 CFR 2.390". To the extent possible, your response should not include any personal privacy, proprietary, or safeguards information so that it can be made publicly available without redaction.

Please feel free to contact Mr. Craffey or Mr. Tehrani of my staff if you have any questions regarding this inspection. Mr. Craffey can be reached at 630-829-9655, and Mr. Tehrani can be reached at 630-829-9809.

Sincerely,

/RA/

Aaron T. McCraw, Chief
Materials Inspection Branch
Division of Nuclear Materials Safety
