NRC Representative Name/Title: John Miller/Health Physicist

Subject: License Renewal Application

Discussion: Miller called Mr. Hannig to get clarification concerning his requested authorized use of the radioactive material. In his letter dated July 21, 2015, Mr. Hannig requested in item 3.(7) that he be authorized for exchanging materials in 6.B through 6.O at the licensee's facilities. Miller asked what materials Mr. Hannig planned on exchanging at the licensee's facilities. He stated that he sometimes is required to exchange source housing from the gauges. He emphasized that as stated in his application and letter that he does not remove the source from the source housing. The source remains shielded.

Miller pointed out to Mr. Hannig that there is no item 6.O on his license and asked if he would want the requested authorization for all the sealed sources on his license. He stated that would make sense to support his business. Miller informed him that he would clarify "materials" as "source housings" and authorize the exchanges for all the sources listed on the license.
