Subject: Amendment Request, dated May 12, 2015

Discussion:

During a conversation with the RSO on July 30 – 31, 2015 and August 3 – 4, 2015, regarding the use of individual monitoring devices (specifically, the Instadose dosimeters from Mirion Technologies) for occupational dose, and whether personnel monitoring is required based on their program. Specifically, we discussed that the legality of using Instadose Badges for personnel monitoring is currently being reviewed by the NRC's Office of General Council and that Siemens Dosimetry SOP, E032, Dosimetry Monitoring Procedures (submitted as Attachment 2) refers to Instadose Badges. Based on this conversation, the RSO requested that Attachment 2 be withdrawn from their amendment request. I informed the RSO that the amendment request will be processed and Attachment 2 will not be tied to the license.
