Dear Mr. Dowd:

This refers to your license amendment requests. Enclosed with this letter are the amended licenses. Please note that, as discussed with your Radiation Safety Officer, Dr. Herman Boeglin, on July 30, 2015, the information for the iodine-125 and palladium-103 sources have been updated in accordance with the latest Sealed Source and Device Registries for the respective sources.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at [www.nrc.gov](http://www.nrc.gov); select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits**, see our **toolkit index page**.
