Subject: [External_Sender] Radioactive Waste Disposal 10 CFR61 Docket ID NRC-2011-0012

Dear Secretary,

I oppose the proposed 10 CFR 61 changes and ask NRC to make changes in the direction of greater isolation of waste.

We have seen all kinds of leaks in the last 60 years. We must take steps to protect our children and grandchildren: standards must not be weakened to put them at risk.

Radioactive materials hazardous for 100 years or more should be kept out of burial grounds. Simply labeling various time periods (compliance, performance, protective assurance, etc) and assigning increasing allowable doses does not protect anyone--it simply makes it legal to pollute.

Radioactive releases and exposure to humans and other species must be prevented, not increased.
