Dear Mr. Richard:

In a letter dated March 7, 2014 (ML14070A563), the licensee requested an exemption from Title 10 of the *Code of Federal Regulations* (CFR) 30.36(d)(3) and an alternate schedule for submittal of a Decommissioning Plan pursuant to 10 CFR 30.36(f) and (g)(2). The U.S. Nuclear Regulatory Commission (NRC) is continuing to review your exemption request. Mail Control Number 583566 was assigned to the alternate schedule request licensing action.

In discussions with you on August 13, 2015, it was agreed that the alternate schedule request was not necessary at this time due to the licensee's exemption request submittal. Consequently, the alternate schedule request under Mail Control Number 583566 is being voided.

If you have any questions concerning the decommissioning process or the requirements for the decommissioning of your facility, you may contact Michael LaFranzo of the Materials Control, ISFSI, and Decommissioning Branch at 1-630-829-9865.

In accordance with Title 10 of the *Code of Federal Regulations* (CFR) 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC's Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC's website at <http://www.nrc.gov/reading-rm/adams.html>.
