Dear Mr. Hipolito Gonzalez and Mr. Richard Struckmeyer,

We would like to request an amendment to our current license to add another isotope Carbon-14, which is used in our Panasonic TLD radiation badge readers.

Please see the attached amendment request letter, NRC Form 313 and other documents describing the changes. Two (2) hardcopies of this document were sent to your office today via UPS Courier Service. We look forward to your review of our request. Thank you very much.

If you have any questions or comments, please do not hesitate to contact Sue Engelhardt at 262-227-2341 or myself at the below address.

Sincerely,

Ramon P. Cabrera
