DUKE POWER

January 31, 1995

U.S. Nuclear Regulatory Commission
Attention: Document Control Desk
Washington, DC 20555

Subject: Oconee Nuclear Site
Docket Nos. 50-269, -270, -287
Inspection Report 50-269, -270, -287/94-24
Notice of Deviation 94-24-05
Delay of NRC Commitment Item

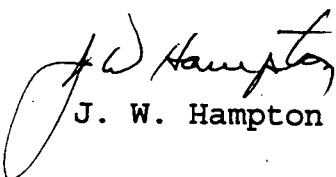

Dear Sir:

By letter dated December 19, 1995, Duke Power responded to Notice of Deviation 94-24-05 regarding classification of the High Pressure Injection Pump Recirculation Line Piping. In the subject response, under the section titled "The date when corrective actions will be completed", it is stated that a "Relief Request will be submitted by 02 February 1995". This constitutes a commitment to the NRC. Duke is unable to meet this commitment in the specified time frame due to the large scope of drawing research required for this Relief Request.

Duke informing you that an extension of this date to 16 February 1995 is necessary in order to complete the identification of affected piping boundaries and to complete the review process for this Relief Request. This extension will not result in any decrease in the level of health and safety to the public.

If there are any further questions about this item, please contact David Nix at (803) 885-3634.

Very truly yours,

J. W. Hampton
