Generic License Renewal Program (GLRP)
Integrated Plant Assessment Process Demonstration Report
Document No. 47-1228802-00

Dear Mr. Crutchfield:

By letter OG-93-1303, GLR-93-123 dated November 5, 1993, the B&WOG GLRP submitted a report entitled "B&WOG Integrated Plant Assessment Process Demonstration." This document inadvertently included a proprietary attachment under Appendix J, Section 6 to the report. We hereby withdraw that section and request that you return it to Mr. David J. Firth at BWNT.

Please find attached a non-proprietary version of this information. Please replace the front matter of Appendix J and Section 6 to Appendix J with the attached revision B to Duke Power Report No. ONLR-0005.

Attachment

cc: T. G. Hiltz - ONRR (20 copies)

The purpose of this revision is to update the Oconee plant-specific appendix, i.e., Appendix J, to remove BWNT proprietary data. Specifically, Appendix J of Revision 0 contains a proprietary copy of the Generic Component Summary for the GLRP Program (51-1224979-01). BWNT has since released a non proprietary version of the Generic Component Summary for the GLRP Program, i.e., BWNT document 51-1224979-04.

Duke Power revised their plant-specific report by replacing the proprietary Component Summary document with the non proprietary version. The revision did not change any of the ONS plant-specific results. The pages that follow include the revisions incorporated in the front matter and Section 6.0 of the ONS plant-specific document; these pages supersede those presented in Appendix J of BWNT document 47-1228802-00.
