Docket Nos. 50-269, -270, -287

Dear Sir:

Your letter dated February 18, 1982 concerning a Draft Technical Evaluation Report by Franklin Research Center on control of heavy loads at Oconee requested a conference call and information in order to help complete your review. The conference call was conducted on April 20, 1982 with the staff. Specific data are being requested from the crane vendors, but as this may involve special contracts and does require extensive effort to obtain, more time than specified in your letter will be needed to provide the requested information. The information should be available and forwarded to you by August 2, 1982.

Very truly yours,

William O. Parker, Jr.
