Operating Reactors Branch No. 4

Re: Oconee Nuclear Station  
Docket Nos. 50-269, -270, -287

Dear Sir:

The purpose of this letter is to document the submittal of interim report BAW-1597, "Effects of Asymmetric LOCA Loadings," for Oconee Nuclear Station. The report has been submitted generically for B&W 177FA plants by a letter from J. W. Taylor, B&W, to D. G. Eisenhower, NRC, dated February 14, 1980.

Based upon the NSSS component evaluations contained in the report, it is concluded that continued operation of Oconee is justified.

The final report will be submitted to the NRC no later than July 1, 1980.

Very truly yours,

  
William O. Parker, Jr.
