NRC STAFF'S UPDATED STATUS
REPORT OF SAFETY REVIEW SCHEDULE

Pursuant to the Atomic Safety and Licensing Board's February 1, 2013 Amended Initial Scheduling Order, the NRC Staff hereby submits this updated status report regarding its safety review schedule.¹ The Staff had previously estimated that this document would be completed in September, 2015.² The Staff currently expects to complete its Safety Evaluation Report in October, 2015. While the ongoing settlement discussions between the parties have contributed to this delay as the results of these discussions could impact the Staff's Safety Evaluation Report, the Parties are making progress and hope to reach a settlement soon.³

Respectfully submitted,
