Subject: [External_Sender] Docket Nos. PRM-20-28, PRM-20-29, and PRM-20-30, NRC-2015-0057

Dear Secretary,

I am disappointed to read that the NRC is considering these 3 petitions. They are based on an assumption that some amount of radiation might be good. We know radiation can produce mutation and most mutation are harmful. The regulations in place recognize and attempt to reduce the number of mutation that from radiation. To change the current regulations as recommended in these petitions would be a travesty.
