Subject: [External_Sender] Docket Nos. PRM-20-28, PRM-20-29, and PRM-20-30, NRC-2015-0057

Dear Secretary,

Dear NRC Rulemakers: Regarding the Radiation Standards. Please do not allow the standards to be weakened. Doing so would go against the preponderance of evidence showing that even tiny amounts of radiation can cause serious or deadly harm to, particularly, vulnerable populations such as pregnant women, fetuses, infants and small children. If anything, knowing what we know at this time, standards ought to be strengthened. Thank you.
