Re: Approval of Non-Significant Revision Application, To Make Changes to Volume III-P. Cameco Resources Mine, Permit No. 633, TFN 6 4/044, Change No. 85.

Dear Mr. Garoutte:

This letter approves your Non-significant Permit Revision for the insertion of the revised page 7 and a Map to Volume III-P. This approval allows Cameco to remove monitoring wells, KM-013, KM-014 and KM-016 as excursion monitoring ring wells and hold them as future restoration monitoring wells.

In the event that revisions other than those listed on the Index of Changes inadvertently occurred within this package, those revisions are not automatically considered approved.

The LQD tracks this NSR as Change No. 85.

Please feel free to contact me if questions or concerns arise.

Respectfully,

Miles Bennett

Uranium Coordinator
