

PUBLIC SUBMISSION

As of: 8/20/15 2:49 PM Received: August 15, 2015 Status: Pending_Post Tracking No. 1jz-8kkk-7xo7 Comments Due: September 08, 2015 Submission Type: Web

Docket: NRC-2015-0057

Linear No-Threshold Model and Standards for Protection Against Radiation

Comment On: NRC-2015-0057-0010

Linear No-Threshold Model and Standards for Protection Against Radiation; Notice of Docketing and Request for Comment

Document: NRC-2015-0057-DRAFT-0127

Comment on FR Doc # 2015-15441

Submitter Information

Name: Peter Farbish

General Comment

The solution to more releases of nuclear contamination into the biosphere is not to try and claim that it is good for us. The growing problem is primarily particulate in nature. Internal sources of alpha radiation from inhaled particles of plutonium and americium lodged in your lungs or other internal organs is not safe or beneficial in any quantity. the same can be said for radioactive isotopes of cesium and iodine. Any dose is too much when taken internally!
