Dear Secretary,

ARE YOU KIDDING US? REJECT the three petitions for rulemaking cited in the subject line. Do your job.

These three petitions seek to drastically weaken radiation protection standards. There is NO threshold of exposure below which low levels of ionizing radiation can be demonstrated to be harmless or beneficial.

FOR THEIR OWN PROFIT the petitioners have done the nation a disservice by attempting to weaken these standards.

Any changes to radiation regulations contemplated by the NRC should be in the direction of strengthening, not weakening them.

Thank you.
