Subject: Comley Letter Enclosures K & N

Importance: High

ADAMSAccessionNumber: ML15239B062

Please insert this email in the associated ADAMS package:

The Region I DRM staff informed us that they could not load into ADAMS two video files provided by Stephen Comley – Enclosures K & N to his July 2015 letter.

Enclosure K contained a CNN video from the early 1990s entitled “Inside the NRC – Regulation or Intimidation” as well as a series of short TV video clips from various sources from August 1989 to the mid-1990s.

Enclosure N dates back to 1987 and shows road maps of the beach areas near Seabrook as well as traffic congestion at the beach. It appears to have been filmed entirely by Mr. Comley and one or more friends. It is ~50 minutes in length.

The audio and visual quality of both disks is poor, particularly for Enclosure N. I will retain physical copies of both disks for the foreseeable future in the event others wish to view them.

Thanks!
