Subject: [External_Sender] Uranium mine in western Nebraska
Date: Thursday, August 27, 2015 10:46:30 PM

NRC,

Please close the uranium mine, deny permit renewal, and no expansion. Our local water is in danger and the health of our families and community are in danger of this mine. Please take pity on our community and deny them further destruction of our pristine resources in western South Dakota. - Leave it in the ground.
