

2015 DRESDEN NUCLEAR POWER STATION

INITIAL LICENSE EXAMINATION

MISCELLANEOUS CORRESPONDENCE

**UNITED STATES
NUCLEAR REGULATORY COMMISSION**

REGION III
2443 WARRENVILLE RD. SUITE 210
LISLE, IL 60532-4352

April 15, 2014

Mr. Michael J. Pacilio
Senior Vice President, Exelon Generation Co., LLC
President and Chief Nuclear Officer, Exelon Nuclear
4300 Winfield Road
Warrenville, IL 60555

SUBJECT: CONFIRMATION OF INITIAL OPERATOR LICENSE EXAMINATIONS:
CLINTON POWER STATION, UNIT 1 AND DRESDEN STATION NUCLEAR
POWER STATION, UNITS 2 AND 3

Dear Mr. Pacilio:

We have received your corporate letter U-604164, dated April 4, 2014. In this letter, you requested that the initial operator licensing examination scheduled at the Clinton Power Station, Unit 1, for April 2015 and the initial operator licensing examination scheduled at the Dresden Nuclear Power Station, Units 2 and 3, for March 2015 be switched to support an outage at the Clinton Power Station.

In response, the NRC Operating Branch schedule has been changed to reflect that the Dresden Nuclear Power Station initial license exam is now scheduled for the weeks of April 6, 2015, and April 13, 2015. Similarly, the Clinton Power Station initial operator licensing exam is now scheduled for the weeks of March 16 and 23, 2015. The onsite validation dates for the Dresden Nuclear Power Station initial exam are March 9, 2015, and February 23, 2015, for the Clinton Power Station initial exam.

In the unlikely event that we are unable to support the examination during the scheduled weeks, we will inform you immediately, upon discovery, of such conditions and make arrangements to administer the examination at a mutually acceptable date.

We understand that your staff will develop both examinations unless we determine it is necessary for the NRC to develop an examination in which case, we will notify you immediately upon discovery of that need. Since both classes have more than nine applicants being considered for each of these examinations, the examinations were each scheduled for two weeks. Please inform us if the number of candidates change for any examination as this may impact the examination schedule. Also, please inform us at your earliest opportunity if you discover the need to change the scheduled dates for the examinations.

A supplementary letter will be sent to the training department approximately 120 days prior to the examination informing the training manager of the chief examiner's name. The letter will also outline examination security expectations, list the materials required by the NRC to conduct the examination, reconfirm the examination date, and reconfirm the number of candidates you have in the Training Program.

M. Pacilio

Clinton Power Station, Unit 1
Facility Operating License No. NPF-62
NRC Docket No. 50-461

Subject: Clinton Power Station and Dresden Nuclear Power Station Updated Proposed
2015 Initial Operator Licensing Examination Dates

Reference: Letter from David M. Gullott (Exelon Generation Company, LLC) to U.S. NRC
(Document Control Desk), "Exelon Generation Company, LLC (EGC)
Response to NRC Regulatory Issue Summary 2013-06, 'Preparation and
Scheduling of Operator Licensing Examinations,'" dated July 8, 2013, Exelon
Letter RS-13-183.

NRC Regulator Issue Summary 2013-06, Preparation and Scheduling of
Operator Licensing Examinations," dated June 7, 2013.

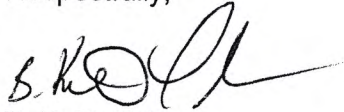

The referenced Exelon Generation Company, LLC (EGC) letter was written as a response to the reference Regulatory Issue Summary (RIS) requesting that facility licensees provide a proposed schedule of operator licensing examinations and an estimate of the number of candidates requiring initial operator license examinations for calendar years 2015 through 2018, and the number of candidates requiring Generic Fundamentals Examinations for calendar years 2015 and 2016.

Within the referenced letter and its attachment, Clinton Power Station (Clinton) and Dresden Nuclear Power Station (Dresden) provided Initial Operator License Examination dates. The 2015 proposed Initial Operator License Examination dates are updated as follows:

<u>Station</u>	<u>Proposed Primary Date</u>	<u>Proposed Alternate Date</u>
Clinton	03/16/2015	03/23/2015
Dresden	04/06/2015	04/13/2015

There are no regulatory commitments contained within this letter. Should you have any questions concerning this letter, please contact Mr. Christopher Dunn, Clinton Training Director, at (217) 937-4000.

Respectfully,

**SUBJECT: CONFIRMATION OF INITIAL OPERATOR LICENSE EXAMINATIONS:
DRESDEN NUCLEAR POWER STATION, UNITS 1 AND 2**

Dear Mr. Pacilio:

We have received your corporate letters RS-12-114, dated July 5, 2012, and RS-13-183, dated July 8, 2013. In these letters, you requested that initial operator licensing examinations be scheduled at the Dresden Nuclear Power Station in March 2015, August 2016, and October 2018.

In response, we have scheduled initial license exams for the following dates:

- Weeks of March 23 and 30, 2015, with an onsite validation date of March 2, 2015;
- Weeks of August 8 and 16, 2016, with an onsite validation date of July 18, 2016; and
- Week of September 24, 2018, with an onsite validation date of September 3, 2018.

In the unlikely event that we are unable to support the examination during the scheduled weeks, we will inform you immediately, upon discovery, of such conditions and make arrangements to administer the examination at a mutually acceptable date.

We understand that your staff will develop the examinations unless we determine it is necessary for the NRC to develop an examination in which case, we will notify you immediately upon discovery of that need. Because your letter indicated that there were more than nine applicants being considered for the 2015 and 2016 examinations, the examinations were each scheduled for two weeks. Please inform us if the number of candidates change for any examination as this will impact the examination schedule. Also, please inform us at your earliest opportunity if you discover you need to change the scheduled dates for the examinations.

A supplementary letter will be sent to the training department approximately 120 days prior to the examination informing the training manager of the chief examiner's name. The letter will also outline examination security expectations, list the materials required by the NRC to conduct the examination, reconfirm the examination date, and reconfirm the number of candidates you have in the Training Program.

NRC Docket No. 50-289

Subject: Exelon Generation Company, LLC (EGC) Response to NRC Regulatory Issue Summary 2012-07, "Preparation and Scheduling of Operator Licensing Examinations"

Reference: NRC Regulatory Issue Summary 2012-07, "Preparation and Scheduling of Operator Licensing Examinations," dated June 8, 2012

The referenced Regulatory Issue Summary (RIS) requested that facility licensees provide a proposed schedule of operator licensing examinations and an estimate of the number of candidates requiring initial operator license examinations for calendar years 2014 through 2017, and the number of candidates requiring Generic Fundamentals Examinations for calendar years 2014 and 2015. Attachments 1 through 11 provide responses to RIS 2012-07 for the EGC plants identified above. The requested information for each facility is provided on a separate NRC Form 536.

In calendar year 2016, six candidates are expected to take the dual-site Limited Senior Reactor Operator (LSRO) initial license examination as indicated on Attachment 7. The schedule for the indicated examination is as follows: the written examination and a portion of the operating examination will be given at Limerick Generating Station (LGS); the remainder of the operating examination will be completed at Peach Bottom Atomic Power Station (PBAPS). Since the LSRO examination is a dual-site examination that involves LGS and PBAPS, rather than repeating the same information on both attachments, the examination scheduling information is provided on Attachment 7 for LGS. Attachment 9 for PBAPS references Attachment 7 where appropriate.

There are no regulatory commitments contained within this letter. Should you have any questions regarding this letter, please contact Dwi Murray at (630) 657-3695.

Respectfully,

David M. Gullott
Manager – Licensing

Subject: Exelon Generation Company, LLC (EGC) Response to NRC Regulatory Issue Summary 2013-06, "Preparation and Scheduling of Operator Licensing Examinations"

Reference: NRC Regulatory Issue Summary 2013-06, "Preparation and Scheduling of Operator Licensing Examinations," dated June 7, 2013

The referenced Regulatory Issue Summary (RIS) requested that facility licensees provide a proposed schedule of operator licensing examinations and an estimate of the number of candidates requiring initial operator license examinations for calendar years 2015 through 2018, and the number of candidates requiring Generic Fundamentals Examinations for calendar years 2015 and 2016. Attachments 1 through 10 provide responses to RIS 2013-06 for the EGC plants identified above. The requested information for each facility is provided on a separate NRC Form 536.

For the Limerick Generating Station (LGS) and the Peach Bottom Atomic Power Station (PBAPS), the Limited Senior Reactor Operator (LSRO) initial license examination can be a dual-site examination. Rather than repeat the same information on both attachments, the examination scheduling information is provided on Attachment 6 for LGS. Attachment 8 for PBAPS references Attachment 6 where appropriate. There are no candidates currently expected to take the dual-site LSRO initial license examination for calendar years 2015 through 2018, as indicated on Attachment 6.

There are no regulatory commitments contained within this letter. Should you have any questions concerning this letter, please contact Richard W. McIntosh at (630) 657-2816.

Respectfully,

David M. Gullott
Manager – Licensing
Exelon Generation Company, LLC

UNITED STATES
NUCLEAR REGULATORY COMMISSION
REGION III
2443 WARRENVILLE ROAD, SUITE 210
LISLE, ILLINOIS 60532-4352

April 1, 2015

Mr. Bryan C. Hanson
Senior VP, Exelon Generation Company, LLC
President and CNO, Exelon Nuclear
4300 Winfield Road
Warrenville, IL 60555

SUBJECT: OPERATOR LICENSING EXAMINATION APPROVAL

Dear Mr. Hanson:

The purpose of this letter is to confirm the final arrangements for the upcoming operator licensing examinations at the Dresden Nuclear Power Station.

The U.S. Nuclear Regulatory Commission (NRC) has completed its review of the operator license applications in connection with this examination and will separately provide a list of approved applicants to Mr. Paul DiGiovanna, Training Director. Note that any examination waivers and application denials have been addressed in separate correspondence.

The NRC has approved the subject examinations and hereby authorizes you to administer the written examinations in accordance with Revision 9, Supplement 1, of NUREG-1021, "Operator Licensing Examination Standards for Power Reactors," one day during the week of April 13, 2015. The NRC staff will administer the operating tests during the weeks of April 6 and 13, 2015. This examination has undergone extensive review by my staff and representatives responsible for licensed operator training at your facility. Based on this review, I have concluded that the examination meets the guidelines of NUREG-1021 for content, operational, and discrimination validity. By administering this examination, you also agree that it meets NUREG-1021 guidelines, and is appropriate for measuring the qualifications of licensed operator applicants at your facility. If you determine that this examination is not appropriate for licensing operators at your facility, do not administer the examination and contact me at 630-829-9707.

Please contact Mr. Randy Baker, Chief Examiner, at 630-829-9871, if you have any questions or identify any errors or changes in the license level reactor operator (RO) or senior reactor operator (SRO) or type of examination (partial or complete written examination and/or operating test) specified for each applicant.

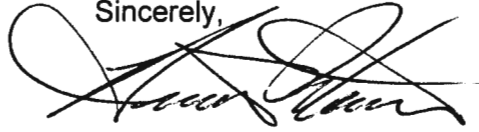

In accordance with Title 10 of the *Code of Federal Regulations* (10 CFR) 2.390, "Public Inspections, Exemptions, Requests for Withholding," of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC's Public Document
