

Aug 19, 2015

I am sending this letter to show my support of Renewing Cameco Crow-Butte Resources minning permits.

I have lived in the Crawford Area all my life. I farm & Ranch our family farm which has been in the family since 1888. There has never been any issues from Crow Butte since opening. Our water Sources are The Rivers, Creeks & water wells. They are very efficent when working on the land as well as the water.

I have hauled Cattle Rock & Hay for alot of our local Ranchers & there has never been an issue as far as our lively hood which is centered around land & water

This should be a mott issue Uranium is a valueable resource for us all
