In the Matter of CROW BUTTE RESOURCES, INC.
(License Renewal for the In Situ Leach Facility, Crawford, Nebraska)
Docket No. 40-8943 ASLBP No. 08-867-02-OLA-BD01

To Whom This May Concern:

This letter is in support of renewal by the NRC of Crow Butte Resources' license to operate an in-situ uranium leach recovery mine, near Crawford, Nebraska.

I grew up and have lived in this area all my life, attended school with many of the employees, and know of their perpetual concern for the safety of drinking water and the environment. Many of them, or their families including myself, have nearby farm/ranch interests.

I live only about two miles from the mine, and am employed by BNSF railway. I was employed for about 1 year by the drilling contractor for the mine during exploration and in the early days of the mine, and am familiar with the environmentally-friendly mindset of this company and its employees.

Please grant the Application for License Renewal of Crow Butte Resources.

Sincerely,

Jack Lux
